

RCCEX Private Macros

RCC Private macros
to check input parameters

```
graph RL; A[RCC Private macros to check input parameters] --> B[RCCEX Private Macros];
```

The diagram consists of two rectangular boxes connected by a horizontal arrow pointing from right to left. The box on the right is shaded gray and contains the text 'RCC Private macros to check input parameters'. The box on the left is white with a black border and contains the text 'RCCEX Private Macros'. The arrow indicates that the RCC Private macros are used to check input parameters for the RCCEX Private Macros.
